

All my notes under RESOURCES are password protected. Some reasons for this are:

1) Copyright issues: whenever I felt that the treatment of certain topics in standard books could not be improved I followed the treatments closely without permission from the authors.

2) The notes are not in the form of text books. They are tersely written with myself (and possibly some other teachers in mind). Students can use these notes only with the help of teachers.

3) NO PROOF-READING HAS BEEN DONE! Errors are bound to be there.
