

ANALYSIS SYMPOSIUM

Venue : Auditorium

MAY 11, 2009

15.45-16.20 A.P.Singh :

Baker domains of entire and meromorphic functions

16.25-17.00 K.P.Deepesh :

Approximation numbers of operators on normed linear spaces

MAY 12, 2009

11.30-12.20 J.S.Aujla :

Convex functions and matrix inequalities

12.25-13.15 Tarun Das :

On hyperbolicity of compact invariant sets

14.20-15.25

Ajay Kumar :

Operator spaces and Grothendieck inequality

MAY 13, 2009

11.30-12.05 Sachi Srivastav :

Maximal regularity for second order Cauchy problems

12.05-12.40 Sudipta Dutta :

Borel determinacy and saturation by structural subspaces

12.45-13.15 Anima Nagar :

Collective dynamics on hyperspaces

16.00-17.00 Tirthankar Bhattacharya :

Weak Beurling property and extensions to invertibility
