

KARNATAKA REGIONAL MATHEMATICAL OLYMPIAD 2008

Are you good in Mathematics? Take up this challenge and bring another gold medal for India!

Objectives and Structure of Mathematics Olympiads :

- The principal objectives are to identify and nurture students with special talent in Mathematics.
- The KRMO (Karnataka Regional Mathematical Olympiad) is a 3-hour test in which the participants are expected to solve 6 to 7 problems. The test is to be held simultaneously in several centres in the state on November 9, 2008 (1.00 to 4.00PM).
- About 30 of the top performers in KRMO are selected for participation in the INMO (Indian National Mathematical Olympiad) which is a 4-hour test held in different regions of India simultaneously on January 18, 2009.
- About 30 of the top performers in INMO are awarded a certificate of merit. Further, they are eligible to attend a training and selection camp (IMOTC) in May.
- Six best students will be sent to IMO (International Mathematical Olympiad) to represent India. 50th IMO will be held in Germany during July 10-22, 2009.
- This Mathematics Olympiad is recognised by the National Board for Higher Mathematics. Top performing Mathematics Olympiad students get **direct admission** to courses of several premier educational institutes of India.
